Here’s some information that you might find helpful before you start work on the lesson.

Sunny Side Of The Mountain is in the key of G major.

There are three different tempos for Sunny Side – Learning, Slow Jam and Performance. The tempos for the different versions are:

Learning Tempo:	56bpm
Slow Jam Tempo:	80bpm
Performance Tempo:	112bpm

The Learning Tempo has three mp3s (except for bass, which has two) – the easier and advanced breaks back to back with the band, solo with a metronome click, and a version without your instrument so that you can practice playing along.

The Slow Jam Tempo has two versions – with and without your instrument; the easier and advanced solos at the Learning Tempo are in the same mp3.

The Performance tempo has three versions – with and without your instrument, and an excerpt showing different styles of backup; the bass has a rhythm track only version.

Even if you’re not a singer it’s worth downloading the Without Vocals versions of this song as they give a clearer picture of what’s being played behind the singing.
